CAMPUS STORES AND MAIL OFFICES IN NEW BUILDING

The new Warehouse and Mail Building, located north of the Physical Plant office and shop wing, is now completed.

Campus Stores-Receiving and Mail Room personnel are already in occupancy.

Built by the Physical Plant personnel from plans conforming to those of the existing Physical Plant buildings, the new concrete block facility appears to be an exact duplicate of the Physical Plant office and shop wing, complete with matching outside trim, yellow venetian blinds, air conditioning and a fantastic view of the campus.

The 3,200-square-foot building will provide much needed warehouse space and provide adequate mail room offices, which were formerly housed in the shop area of the Physical Plant.

Campus personnel are invited to visit the College's newest facility, built by the College's own building trades employees.

Please refer to Directory Changes in the Bulletin for extension changes and new room numbers of Campus Stores/Receiving and Mail Room.

COLLEGE RECEIVES FUNDS FOR LOANS, SCHOLARSHIPS

Two organizations last week gave a grant or scholarship fund to the College for aiding students.

The California Retired Teachers Assn. presented the College with its third \$500 grant, to be used as an emergency loan fund for students entering the teaching field. The \$1000 received in the first two grants --borrowed, repaid and loaned out again--has aided 98 students with a total of \$4,697, according to Ted Drug, Financial Aid Advisor. The CRTA, in awarding the third grant, cited the reason that it believes the College used the previous funds well.

The Cal State Faculty Wives have notified President John M. Pfau that their scholarship fund has reached the point where the

annual interest accrued will support the \$100 yearly scholarship contributed by that group since 1970. They have donated \$2,131 to the College to establish a perpetual annual Cal State Faculty Wives Scholarship.

In accepting the check from the organization, President Pfau stated that when the income from the investment reaches the level at which a \$150 per year scholarship, and later a \$200 scholarship, can be provided, the College will request authorization to increase it to those amounts.

Selection of a recipient for the fifth \$100 scholarship will be made later this month.

Cal State planning music career night

Music teachers with San Bernardino City Unified School District, in cooperation with music faculty at California State College San Bernardino, will present a "Career Night in Music" for 9th through 12th graders (7th and 8th graders with special interests are invited, too) at Cal State Library (5th floor) from 7:30 to 9 p.m. Wednesday.

Professionals in music will join teachers in advising boys and girls as to how to prepare for a career in music. These will include Alan Lindgren, arranger-pianist-organist for Neil Diamond and Barbra

Streisand, discussing popular music, jazz and record production; Gary Francisco, expert on the music industry; and Pearl Wilkerson, music therapist.

Other subjects to be covered: Symphony, concert artists, music education and electronics in music.

Frank E. Lindgren, district coordinator of performing arts, said "parents are invited to attend."

Register now for June vote

-- Sunday is the deadline to register for the June 4 primary election, William H. Clinton, county registrar of voters said yesterday.
